

2026

Industry Member
Application

Industry Membership

WHAT IS AN INDUSTRY MEMBERSHIP?

Industry Member status is available to North American-based wellsite service and supply companies and manufacturers, with at least 50% of its sales in the drilling, production, refining, and/or pipeline segments of the petroleum industry. Annual dues are based on dollar volume sales to those segments. A candidate company must also have the endorsement of two Energy Workforce Directors.

BECOMING A MEMBER

Joining Energy Workforce as an Industry Member can be done in three easy steps:

1. Confirm your company is eligible for industry membership:
To be eligible for Industry Membership status, a company must be a manufacturer, oilfield service or supply company, with at least 50% of its sales going to drilling, production, refining and/or pipeline segments of the petroleum industry.
2. Find two members of the Energy Workforce Board of Directors and Advisory Board to write a letter of recommendation on your behalf. A list of current board members can be found by visiting our website. Energy Workforce staff can assist in identifying Board of Directors or Advisory Board members who are familiar with your organization and may be willing to provide a referral. Please contact rashley@energyworkforce.org for assistance.
3. Complete and send this application to:

Description of products or services (In particular, list those products or services sold exclusively to the drilling and production segments or to the oil and gas industry.) _____

What percentage of total business is exclusively oil and gas industry? _____%

Industry Membership

The schedule of dues for the Energy Workforce & Technology Council is based upon a graduated scale of gross global sales revenue related to petroleum or natural gas activities for the preceding year. For example, 2026 dues are based on 2025 sales revenue.

Total dues are based upon the amount from the dues schedule below.

Please indicate the range below that applies to your company's gross global sales revenue to the petroleum or natural gas industries, as a manufacturer, services or supply company in the oilfield services and equipment sector.

The 1993 Budget Reconciliation Act included a provision that would make a portion of association dues allocated to government relations non-deductible. The Council has elected to make a payment in lieu of taxes that will permit all Council members to fully deduct dues as a business expense.
